Notes)

- Above kit does not include grease, lubricator, and packing follower. Please separately order these parts if it is necessary.
- Material of metallic parts included in the kit is SUS316. If the valve is made with anti-corrosion material like 304L, 316L, or Hastelly, the material of metallic parts must be same as those anti -corrosion material. In this case, please issue RFQ of special valve (TOKUMI).
