

M604F

Modutrol Motors

The M604F is a 2-position or floating control line-voltage (100 or 200Vac) Modutrol motor which accepts relay contact or potentiometer signal input.

Specifications

Power supply voltage	100/200Vac, 50/60Hz
Power consumption	20W
Ambient temperature	Upward position: -20 to +51°C Downward position: -20 to +43°C
Ambient humidity	40°C, 90%RH max.
Weight	Approx. 4.7kg
Mounting	4 mounting holes, with motor shaft horizontal
Standard attachment	Crank arm, 1 set (Part No. N-3128)

Selection Guide

Model No.	Operation	Input signal	Rotating angle (stroke)	Rotating time (s) at 60Hz	Maximum torque (N-m)	Auxiliary switch
M604F1007	2 position or floating	Relay contact	90°	34	12.3	Provided
M604F1015	2 position or floating	Relay contact	90°	34	12.3	-
