

Chapter 2 MODEL NUMBERS

■ Model selection guide

Basic Model No.	Mounting	Control Output	PV Input	Power Voltage	Option	Additional Processing	Specifications
DC9	(Note 1)	T					Panel mounting
		S					Socket mounting
			0D				Relay output
			6D				Voltage pulse output (for SSR drive)
				T			Thermocouple input (K, J, E, T, DIN U, DIN L)
				R			RTD (Pt100/JPt100)
					A		100 to 240 VAC, 50/60 Hz
						00	None
						01	2 event outputs
				(Note 2) (Note 3)		03	2 event outputs 2 isolated external contact inputs 1 current transformer input
						00	No additional processing

(Note 1) A socket mounted cannot be combined with 03 (option). The socket is sold as an option.
CE is not covered on socket models.

(Note 2) The current transformer is sold as an option.

(Note 3) Requires external 12 or 24 Vdc power supply.

● Options

Name	Model No.
Current transformer	QN206A (5.8 mm hole dia.)
	QN212A (12 mm hole dia.)
Socket (DC9S)	81446391-001
Mounting bracket	81446403-001
Hard cover	81446442-001
Soft cover	81446443-001
Terminal cover	81446464-001
