

C7035A

Minipeeper Ultraviolet Flame Detector

The C7035A is a compact flame detector for use with flame safeguard controls (Protectorelays) with ultraviolet amplifiers.

Features include parallel wiring for difficult sighting applications and protection sealing against pressures up to 34.5kPa.

Specifications

Lead length	Approx. 180cm
Approval bodies	UL, FM, CSA

Selection Guide

Model No.	Ambient temperature	Mounting	Protectorelay	Weight
C7035A1064	-40 to +120°C	Rp1 (PS1) Pipe connection	R4150P/R7259B, R4780C, RA890G, WN200A/R7259B, WN210A/R7259B	320g
129464N	UV sensing tube for C7035A (Replacement part)			
191284	Aluminum shield for C7035A (Replacement part)			
81403159	Seal adapter (order separately)
