

Date: August 20, 2004
To: Those listed
Issued by: CC Chang – International Business Department
Subject: EMT551 Obsolescence and Replacement Model
Purpose: To announce the obsolescence of the EMT551 color monitor and the availability of replacement model.

Background: The EMT551 color monitor is obsoleted because its LCD and LSI components were obsoleted by the supplier. As a replacement model, two models listed in the table below are available. They have compatible external and mounting dimensions and upper compatible functions.

Notes:

- (1) Since the replacement model is a third party product, the model No. and manufacturer name of the company (Gaudi Co., Ltd.) are shown in the specification sheet or on the product.
- (2) The replacement model is upper compatible in functions. But, it is not CE marked.
- (3) For the replacement model compatibility, refer to the bulletin No. 03-A-0126E.

Obsolescence models:

Model No.: EMT0551C05WVX00 (with touch switch)
EMT0551N05WVX00 (without touch switch)

Obsolescence date: October 29, 2004

Maintenance support: Until October 31, 2008

When all parts have been consumed, the support service will be terminated even before the above-mentioned date.

Replacement models:

Model No.	Description
GFC10A18-TRH	10.4 inch RGB monitor (with touch switch)
GFC10A18-H	10.4 inch RGB monitor (without touch switch)

Availability date: Immediately
