

AMC support plan discussion

Minutes of Meeting: July 31 at ExxonMobil Research & Engineering Co.,

Participants:

ExxonMobil

Jeffrey Spaulding - CSST

Richard White – CSST

Yamatake

Masami Yoshida.- Soluton Marketing

HiroshiTsuchiya – Business Development

Summary of discussion

- Yamatake proposed preliminary support plan for AMC equipment and the basic two options recognized as acceptable in principle.
- ExxonMobil is to issue available options as general recommendation to the sites with AMC installation. Actual implementation plan should be tailored site by site to reflect the site-specific requirement as well as availability of support resource of Yamatake.
- NDG can be a candidate for a pilot site and conduct investigation for adaptability of PMP, Parts Management Program,.

Action

- Mr. White is to provide a name and contact information for NDG with Yamatake.
- Yoshida will make a contact with Yamatake Europe to proceed with NDG for site-specific plan discussion.
- Mr. White is to keep updating the AMC user list if any.
- Yoshida is to send a copy of official announcement letter for discontinuation of AMC as it will be ready to publish for the users.
