Kaduna, Nigeria

Ref: KRPC/MD/MTCE/INSTR.09

Dear Engr. Ayodele,

We have received your inquiry from our local Agent (Tycol) in Nigeria and from your London office. We are working on it and it will take us up to end of July to finish/complete the quotation.

This is because there are equipments we manufactured some 30 years ago and need sufficient time to pull out the records and calculate the modern equivalent that will fit 100% into your system.

Please understand our position and confirm by return mail the registered extension.
Thanks in advance

Best regards,

Regis Houllier
