

## **Business activity report Regis Houllier France December 2011**

### **Contact via Internet**

Mr Leo Van Hal

Look for flowmeter mechanical for oxygen, flow : 0-10 lt/h

This is personal use for medical assistance

### **Contact le Creuset**

F4 in test

Mr Berthez has still the flowmeter in test. He did not have time to connect local display to Magflux but will do shortly

### **Contact Snecma**

Making bench test for motor tuning

They need flowmeter but use as level meter to identify level of water in Kerosene

Pressure max : 10 bars volume 20 to 450ml; very special application.

### **Contact Camfil**

77/81 Boulevard de la république

92257 LA GARENNE COLOMBES CEDEX

Mrs Rudié purchaser.

Camfil is looking for air flowmeters for climatic/ventilation application.

They are today more mechanical company than control/electronic oriented. The mechanical flowmeter is interesting but they look more for insertion type solution as their piping is quite large.

### **Contact Laboram**

129 rue de l'Ecole

39570 VEY

This is Laboratory Swiss French company with base in France

Mr Cérésoli asks for water flowmeter mechanical for 0.5 to 5l/h

Quantity: 25 per year in lot of 5

Contact via Internet, make quote A2011RH170

Place order for one sample first. If Ok, number could be quite interesting

Ask for second application with Oil this time, make offer with Troglux D2500

### **Contact Private (Web)**

Mr Hugo Durbercq

School student with project of 2 mechanical flowmeters 25l/mn and 3l/mn water application

No budget, so decline but offer at cost anyway the Troglux

### **Contact Sodima**

Route Marquisie

19600 Saint-Pantaléon-de-Larche

Mr Artaud is looking for replacement of old float meter 0-250NI/mn nitrogen application.

Make offer A2011RH075

### **Contact Truite-Bellet**

Look for one sample for 60m<sup>3</sup>/h troglux with magnet. Application Air, pressure: 0.15bar

Make offer A2011RH174 and received the order by return

### **Contact Areva**

SGN (Sté Générale pour les Techniques Nouvelles)

25 avenue de tourville

50120 Équeurdreville-hainneville

Mr Marcel Julien

They have need of several mechanical flowmeter for nuclear application. They use to work with brook but now Brook has stopped such products. I send complete documentation of FVA+trogflux and Tubux and Minix

**Contact Solvay**

Mrs Laëtitia TRUBERT (buyer)

Solvay Spécialités France

13129 Salin-de-Giraud

She is looking for equivalent of 10W80 promag from E&H.

Make offer A2011RH178

Water application with stainless steel electrodes and Polyurethane liner

Make special price to enter into Solvay company

**Contact Dacau industrie**

5 rue des Frères Lumière

69740 Genas- France

After quotation A2011RH172, they decided to place order for 80 trogflux!
