Recontact laboram

129 rue de l'Ecole
39570 VEVY
Mr Ceresoli indicates that test made with Minix are Ok for the moment. However the troglux quoted at A2012RH170 rev1 has not been tested because too expensive.
We have possibility to revised our proposal ASAP. We make revision but still too expensive. We agree to offer one unit free for testing and revise dprice if qty is going higher.

Trescal SA

1 Rue du Genevrier
62000 ARRAS (France)
David BAELEN
